

Strength Through Diversity

The Bukhatir Group is one of the largest and most diversified business houses in the United Arab Emirates. Its main interests straddle Construction, Education, Information Technology, Real Estate, Shopping & Retail, Sports & Leisure, Healthcare and Oil & Gas Services.

The geographical domain of the Bukhatir Group spans over half the world from North America to North Africa, West and South Asia. The group has an employee base of over 5,000 and its current aggregate annual turnover stands at AED 3 billion approximately.

The giant multinational business empire of today was born in 1974 thanks to a charter of incorporation for Bukhatir Investments Limited issued to the young entrepreneur Abdulrahman Mohamed Bukhatir by His Highness Sheikh Sultan bin Mohammed Al Qasimi.

Riding the crest of the powerful sociological and economic changes that swept the West Asian region in the mid 1970s, Abdulrahman Bukhatir quickly identified diverse avenues for investment, beginning with opportunities in the construction industry.

This positive attitude has helped the Bukhatir Group gather an enormously valuable repertoire of managerial talent within its organisation. Its executive ranks include experienced, efficient and technologically perceptive expatriate managers from both Asia and Europe. Visionary leadership at the top combined with managerial competence down the line has made the Bukhatir Group what it is today; a large, diversified, successful and profitable enterprise.
